**M**Os fuit antiquus apud omnes gentes receptus, Ampliss. Dom. ut fortes prae-

nora patriae socijs aut fœderatis praestita, in Deorum sedes receptos consecra-  
rent & in caelum tollerent; illisque diuinos honores & humano vestigio am-

que omnia numinibus debita praestarent. \* Nos autem cum reliquo Christiano orbe  
praestantes virtute viros omni honore prosequimur, memorias eorum ita celebrantes,  
ut vel nomina, non sine honoraria praefatione, usurpemus, & *Dauidem* imitantes forti-

esse virtutibus. Nec A. T. Jaret honoris templum virtutis templo fuisse conjunctum, in quod nisi per virtutis templum, nemini introire liceret. Ideo hoc virtutis iter tot laboribus molestis circumseptum A. T. vna cum regibus principibusque fortissimis socijs tuis fortiter peregrisse vestigia tua adhuc calentia & vulnera adhuc fere sanguine madentia, liquido demonstrant. Nunc tandem Honorasti. Dom. ad honoris metam tuis proprijs meritis etiam pervenisti, fama per orbem celebratur, nomen omnium gentium annalibus inscriptum aeternum durabit: nil ultra manet nisi vt post tanta & tam dubia pericula, tot durissimos labores ob Evangelij causam defunctos experientiae & sapientiae documentis jam refectus reliquum vitae tempus cum honore in patria & pace transigas: vbi strepitus & tumultus belli (ex summa singulari & diuina in nos misericordia) aures non feriant: vbi vastatorum, turmaz non grassantur, vbi stipatorum & clientium turba A. T. aduentum anie expectat amici exoptant omnes desiderant. Sed quis sum ego ignotus quicquam confidenter & audacter A. T. compellare ausus fui? Cum tanta vis sit virtutis, vt etiam ignotos in sui amorem & admirationem trahat; vnus sum e multis tuarum laudum buccinatoribus. Ignoscas (si culpa summe erga te obseruantiae ascribi potest) vclim audaciae meae, quae tua erit humanitas: qua precipue spe fretus apud A. T. verba facere non dubitavi; praesertim cum viros doctos & literatos de Republica literaria aliquo modo benemeritos & imprimis presbyteros verbi diuini ministros summo fauore & beneficentia semper es prosecutus, quo nomine vbiq; honorifice de A. T. praedicant. Gloriosa sane virtus & apud heroas antiquitus religiose excolta, quando templa & basilicas ad Dei summi honorem aedificabant amplisque redditibus & decimis dotabant, quando Sacerdotes spirituales patres non aliter ac naturales parentes honore prosequabantur. Maeste hac virtute esto; A. D. hac recta itur in coelum. Nunc prohi dolo! omnes & omnia contra mathinari, magnates & diuites plurima templa diuino cultui olim pijsimo zelo dicata diruere, redditibus & decimis spoliare, Sacerdotes & presbyteros contemnere ex parte dite didicerunt. Nec desunt qui sacrilega manu & penna Stygio atramento tincta his Harpijs patrocinantur. Sic resp. fiet mera solitudo, laribulum iterarum nescio quarum immanium, & in antiquum Chaos (quod Deus attertat) redigeretur. Sed me reprimam & longiore oratione A. T. his piaeculis recitandis non morabor: de virtutibus sermo instituitur, vnicam autem praecelaram & penè diuinam virtutem recitare auidè gestio. Nam munificentiam benignitatem & beneficentiam A. T. erga principes & heroas exules & pauperes afflictos, in hac miserranda Germaniae vastatione & calamitate, si vellem enarrare & pro A. T. meritis depingere, inustum volumen oratio turgesceret. Quantas & quam inmensas opes in hos vltus annuatum impendisti, omnes qui ex fama tantummodo A. T. nouerint palam & grate agnoscunt. Hac diua virtus inuidos fortasse multos, aemulos vero vix vltos inueniet, virtutes tuas, Amplissime Domine, decimare decreueram, sed Epistolaris angustia vix Spicelegium admittit. Nunc qua de causa ad A. T. ausus hac verba feci, paucis eloquar. Neque sine munusculo licet indignus sim qui offeram secundum Persicam consuetudinem in conspectum A. T. aduenio. Olim enim doctissimus Riederus reuerendus nunc astites Dictionarium summa cum sua laude composuit, hoc ego vberissime ampliatum & pulchris multisque vtilissimis & necessarijs tractatibus adeo ditatum exhibeo, vt jam per omnes Europae regiones libere circumferatur; precipue vero vt nostrae gentis sermonem quem tot heroum praecelara gesta tecum nobili-

carunt plenius exteri addiscerent. Hæc omnia qualiacunque A. T. humilime inscribo  
& dedico: quoniam ejus sum loci incola A. T. principale dominum, ejus ecclesiæ  
rektor & verbi diuini minister, vbi A. V. principale patronatus jus obtinet: quapropter  
studiorum meorum vsus fructus ad A. T. jure pertinet vt alium patronum querere non  
licuerit.

D. O. M. A. T. vitam salutem incolumitatem atque excellentissima illa tuæ  
veræ heroicæ indolis dona augeat tueatur & conseruet.

# AD LECTOREM.

Eternum verbum cum verbo omnia formasset, verbum item formans rebus singulis accommodata, quæ nomina simul & naturas denotarent. Et tam arctam inter rei & verba connexionem instituit, ut ex nomine ad suam originem reducto, naturam simul & nominis rationem sine etymologia primæni hominibus inuenire, nullo negotio liceret. Huius rei veritatem verenda illa nomina quibus Deus opt. max. nature sue pleniorē noticiam nobis communicare dignatus est, luculenter ostendunt. Iehouah enim sacratissimum suum nomen *יהוה* ab essentia, Exod. 3. Iesum ab officio saluandi, Mat. 1. 21. appellari voluit. Eundem ordinem in creaturis à se nominatis seruare voluit, cum verò Adamum fixisset, & in horto voluptatis collocasset, linguam sanctam eum edocuit & verborum scientia instruxit, ut ad eius exemplar creaturis reliquis nomina secundum naturam imponeret. Quare Adam vocauit mulierem *נוחא* viram, quia ex viro: eandem & *נוחא* Heuah, quia mater erat omnium videntium. Sedula posteritas prototypum imitari non destitit. Iacob, *ישראל* à *שפלה* & *אנדו*, *נבאל* à *נבול* ita nomen meritis sortitur & infinita alia ex sacris paginis exempla ubique occurrunt. Hoc felix inter rei & verba coniugium inuolatē mansit, donec vniuersa terra erat vnius labij & verborum eorundem. Gen. 11. 1. nam buchs, lingua sancta quæ postea dicebatur Hebræa adeo ampla & perfecta extitit, ut curiosis hominibus nomina verba excogitare, nullus eras locus relictus. Sed non diu durat humana felicitas: Linguarum enim confusio ad terram Babel inchoata, multi obscuritatis rem totam obscurauit, & ex uno fonte varij riuuli, ex vna radice varij ramuli difficiliorem fecerunt ad originem regressum. Attamen ex hac lingua confusione non alie plane lingue & prorsus diuersæ, sed potius ex eadem sancta lingua varia dialecti sunt exorte ut adhuc in illis ipsi Orientalibus linguis demonstrari facile possit: lingua Syriaca, Chaldaica, Arabica, Persica, Aegyptiaca, Punica, &c. antiquæ lingue sanctæ originem adhuc referunt. Imo in Græci & Latini dictionibus innumeri lingue primitiue vestigia ubiq; apparent. Sed quo longius posterit Chami & Japheti à Shemi familia sedes fixere, eo magis à puritate sermonis primigenij deflexerunt & agrestem barbariem ex horridis & incultis locis quos incolebant, quasi vna cum spiritu hauserunt. Hinc nomina antiqua aboleri, nona superinduci, varia pro hominum arbitrio imponi, alia pro obliuio & male intellectu excogitari, omnia deniq; adeo obscurari ut ad veras paucorum originum non nisi multimoda inuestigatione peruenire possit. Nam in desertis illis & longe distitis locis vera Dei notitia, artes liberales & disciplina verborum imo nationum origine: & tandem literæ ex hominum memoria penitus exciderunt. Attamen Aegyptij & Chaldaei, Phœnices, omnesq; finitimi populi ex Hebræis: Græci ex Pœni & Phœnicibus, Latini ex Græcis literas & liberales artes seruis acceperunt. Qui tandem ex his verborum vestigijs quæ adhuc manserant, & sui ortum & lingue sue originis cognitionem ediscere incipiunt. Inter hos primus (post Homerum & antiquos poetas) diuinus ille Plato auriferas literarum regiones peragrarē instituit, & verborum origines perquirere & verum naturas indagare ex verborum etymis conatus est. Testis sit eius Cratylus, qui de hominum ipsis differens ait, *ὅτι οὐκ ἔστιν ἄλλο τι ἢ τὸ ὄνομα τῆς οὐσίας*. inde Chrysippus, Demetrius, Ixion, Orion, & alij innumeri diuinum Phil. sophum sequuti vario libris de etymologica disciplina conscriptos posteritati reliquerunt. Postea vero quum Latini humaniores literas à Græcis accipissent auctores præcipua nota hanc etymologicam pertractare & excolere ceperunt, ut per verborum origines ad rerum naturas & causas perferendas facilius esset aditus. Hinc Cato, Verrius, Festus, Asius, Philologus, Capito Alius Stilo, Gallus Sennius, Capito Cincius, Sautra Auerellius, Optatus Isidorus, & ante omnes doctissimus Varro, de etymologis variæ volumina ediderunt. At dolendum quidem quæ ab his alijsq; magni nominis hominibus hac de re conscripta fuerunt, tempus & hominum iniuria magna ex parte interijisse. Est tamen etiam quod nobis gaudemus Deo, Opt. Max. gratias agamus qui & esæu Barbarorum manibus quasdam satem nobis etymologica discipline reliquias conseruauit; eoq; magis quod post multorum seculorum barbariem doctissimorum virorum turbam eandem excitaueris hac fragmenta manca & corrupta aliorumq; auctorum monumen-

ta & ex tenebris eruta huius disciplina etymologica opera, pristina integritati quantum fieri potuit, restituerunt. Inter quos Scaligeri doctorum viro: um iudicio principatum merito obtinent: Julius Caesar Scaliger, alter nostri seculi Varro centum & decem libros de originibus composuit, qui non sine insigni politiori literarum dispendio perierunt. Iosephus eiusdem filius, Lipsius, Casaubonus, Turnebus, Passeratius, & alij innumeri doctissimi viri plurimos autorem nosos difficilimos huius diuinae disciplinae operetesque: nat. At tamen in eorum scripta nullum iam extat volumen integrum de etymologia constructum. Quod cum à plebiscis, magnopere desiderari sepius animaduertirem à quibusdam doctis viris sepe esslagitanti ut hoc onus in se susciperent, sed frustra. Et quoniam in mea curia suppellectilis nihil fere huius muneris idoneum proferre me posse intelligerem, ex alienis scilicet ipsis etymologicum Latinum componere pro virili sum aggressus. Primum igitur auctores veteres qui de eorum originibus tractauerunt diligenter rimatus sum, varios etiam auctorum tractatus qui vel obiter etyma obseruauerunt, nec non veteres simul & recentiores grammaticos consului. Neotericorum commentaria, coniecturae, notae, annotationes, animaduersiones, castigationes, emendationes, explicationes, observationes, & quod verbo dicam totam illam doctorum Criticorum gentem sedulo evolui: varia denique, dictionaria, glossaria, & nomenclationes syllabatum fere perlegi; ex quibus omnibus etyma & eorum proprietates, vocabula pura, obsoleta, exotica & neoterica, quosque inuenire potui, in hoc nostrum disti. Etymol. coaceruavi, ut nullum etymon imo nullum vocabulum sit se. & reliquum quod in hoc nostro thesaurus non facile reperias; quantoque autem labores ab incepto opere subierim lectoris iudicio relatum volo. Nondum enim doctus Fungerus suum etymologicum paruum, nec acutus Beermannus suum Enchiridion, nec bibliophaeus Martinus suum etymologicum eruditissimum, in lucem ediderat, quando meum iam typis destinaram. At utinam autem adeo doctis, copiose & perfecte hoc argumentum illustrauit, ut novum etymologicum conscribere esset cramben bis coctam vobis apponere. Hac fere in Oxoniensi editione, nescio qua fato intercederunt. Si quas praeterea (amice Lector) quid noui portet nona haec editio, ex tibi vocabulorum milia noua, totidemque antiqua ex tenebris eruta iam faciant. Neque vero is sum qui licentiam tu inquam mihi usurpare auseris; id Afris scriptoribus eorumque sequacibus libenter relinquam: qui obscuritates vocum & sententiarum, ita affectate venantur ut tum demum se doctos ai bisrentur, cum sermone ita obscuro aut abhinc multis annis iam desito viuunt, quod scire & intelligere neminem volunt qui dicant: & fortasse egyptum anigmaticis puerilem in modum detestantur: coniturna & nescio qua corrufcatio opplet aures & perstringit oculos hominum, quasi tam sublimis eorum oratio ad incudem reuocasset: Brontese, Stropheze, & nudum membra Pyracem, Commissiones: istos meras componere, & alienum esse sine calce caligula rediuius diceret. Ciceronem quasi obsoletum fasti diuunt, in tantum ut Ciceronem & Casarem - velut sexagenarios de ponte di. turbando: existiment. Typum nouum scribendi formas introducentem perdit suspectum: scilicet stylum cum vestimentorum formis (annuatim iam apud fanaticos va. iatio, mutandum, isti uenatores opinantur. At tibi propositum est ex doctorum monumentis noua & antiqua colligere & collectas, interpretari, & si fieri potest suum etymum & antiquitatibus ornare. In hac vero editione multa vocabula ex antiquis patribus & ecclesiasticis scriptoribus ex Medicis Iuridicis, & glossematorum scriptoribus, ex Aduersis, De la Cerda, Medicina Pandectis, Stupano, & Criticorum Lampade, ex Dictionarijs juris Civilis & Canonici multisque alijs Criticis & auctorum interpretibus desiderata in nostrum etymologicum adscripsi, quae doctis simul & indoctis, ad auctores intelligendos multum lucis adferre possunt. Labor immensus in via immensa, maleu fore assis non ingratus quorum gratia non minimum aetatis virium & facultatum partem consumpsi. At qui apud nos imperium in libros exercere laboris pectus & quatuor nostrum ingratis reportant, mihi fere nil nisi ventus & aer: Sicci ne aspirant, capta mea: verba operose colligenti verba dare equum indicant, esto. sed hoc equiore animo ferre possem, si per eos licuisset, originationes & varios vocaminum usus, plenius dilatare & testimonij confirmare, & Hebraeam cum Latina & Graecis coniungere ceteraque omnia ad operis perfectionem necessaria, persicere: sed quadrupartitis sedulitate coartato longius exartari non permittitur, hortumque transgredi nefas, plura sed attulero ad aliorum libitum expunguntur, cum: uero homines propriam quatuor querentes publica res parum aut nihil student. Inter quos non desuerunt qui hac studia quasi leuia & puerilia contemnunt, qui etiam sepius inter suos iactitare solent, omnesque Auctores & classicos scriptores sine huiusmodi adminiculis posse peragere, adeo, nosos auctorum sententias suo ducere nudare, omnes verborum significatus sine Dictionarijs intelligere. Hoc ex nulla re alia potest nisi ex stupida ignorantia quam plerumque, eiusmodi homuli nec Asopum quidem intelligunt, ut est in proverbio. At tibi capite superbiensium humorum repleto & opinionibus inflato, misere laboranti, nec

aliter fieri pote. Nam caput quomvis asinum, et myriadibus vocaminum & etymon referunt, nisi cito exitum inuenierit, numpatur necesse est. In hoc uero gratiam licet ingratisferimus, tamen ex optimeorum medicorum consilio p. scriptum summa cura comparati, quod nimirum ediditabat, morbus praesentaneus mori minuitur Rex in febore optime preparato quantum sufficit ad purgandum cerebrum, deinde cohorantem compositionem ex nolce cepium, & secum habita, ut nolis postea R. soliorum Perly Iovencalis Lucily ana Vocaj. Sed nec nugatorum nugamenta nec fastidium obf. quædam dicitur morare. De his doctis folimodo indicare norunt, quorum Consensum omnia mea stadia, censenda & corrigenda summura, qui inter varias ac multiplices uerborum significandi modi subsidy affide adiuos libere proficiunt : qui etiam originationis fructum ad docendum utilifrandum & reserandum necessarium in suis doctissimis lucubracionibus possum demonstrare. In undaque enim lingua quedam sunt uocabula primitiva à quibz reliqua à se orta pendunt, horum primigenio nom vocaminum singula suam propriam primariam & genuinam significationem obtinent quam omnibus à se derivata, flexis & compositis paululum variatam impertiant. Sin autem uocabula à primitivis flexa alienam vel diversam significationem induerint, ex originatione arte ratio petenda est. Hac item primigenia uocabula singula ex Hebreo fonte primitus derivata ad sum sacrosanctum fontem ite, umely logicæ disciplinæ reducenda sunt, utrum uel retrahendi : ut diligice A Sacke. M. suo sacrosanto eloquio in paradiiso sacravit & aliarum Linguarum matrem esse voluit, hac lingua legem in tabulis lapideis exaravit, hac lingua scripturas Vet. Test. à spiritu s. dictatas Ecclesie sue donauit. Nonnullos autem Novi T. libros in hac sancta Lingua originaliter fuisse conceptos, multi viri docti autumant, qui & Syriacam versionem eiusdem antiquitatis, cum Graeca origine sumopere contendunt. Probas vero & loquendi formas & sermonis proprietates ex Hebraica, (&) Syriaca Lingua translatas, que eo tempore fuit Iudeorum vernacula, qua D. noster I. Ch. loquendo predicando & orando semper usus est, omnes vel mediocriter docti norunt. Nemo igitur sacra Biblia dextere intelligere ritè tractare vel solidè interpretare potest, qui ex ipsius bonis uerbis uerborum originations derinae non nouit. Ex his enim uerbis & sententiis interpretatus petuntur, ex his argumenta & documenta ad omnes ibeologicos usus necessaria, sumuntur. Similes qui mysteria sacre Scripturae aperiendo nus in se suscipiunt, misere cecutiunt necesse est : idem de prophetis auctoribus traduendis & modandis dicendum, in quibus nisi ad ipsas uerbum originis omnia rextelus ; nunquam auctoris mentem dextere deprehendēs, nec primarias genuinas & proprias significationes à mutapeticis figuratis & analogis distingere queas. Sed nunc tempus est ut eorum criminacionibus respondemus, qui mihi iniuriarum actum in intendunt, quasi ex alienis Dictionarijs præcipue Thomasianno expoliata, nostrum Etymologicum construxerimus, graue enim si modo verum & bonum uisus indignum. Sed nihili in his factum quod alijs omnes Lexicographi ante me non faciatarunt, spero bonus & equos rerum aestimatores tandem libertatem mihi indulgentes, quam in alijs tantopere colledarunt. Cooperus Tirisy, ingruini Dictionarii Latino Germanicum, n. salor, transtulit. Saum autem Thomafius, ex Celespi & Coopero primum compilauit, quod vespigia adhuc recentia offendunt. Postea ex iunynomenclatura & quibusdam glossarijs & herbarijs axis & ampliauit : tandem reuertendus vir D. Philemon Hollandus doctissimus medicus iuxta ac philologus, ipsum Thomafium ex bonis auctoribus, adeo mirifice ditauit, ut nullum in eo genere Dictionarium adhuc extet, quod pro vocabulorum numero, perfectè uocum interpretatione & phrasibus selectis huic Thomafiano adequari merito possit : sibi habeat & per me licet, quod tanta cura & impendio comparauit. In prima huius Etymologica editione, quorundam uerborum interpretationem ex Thomasio decipite, & in nostrum translata uorum negligentia factum, quibus id oneris demandatum erat, ut eadem uocabula interprete, at ex Tridra & Coopero excerptent, non nego : at uero in proxima editionibus illam me uocaliam, quod sciam attigisse, quam alibi non inuenirem, nisi apposito Thomasinome aut T. nominis signo, ut uera perneque. Quod si idem, Tho. in suo Anglicolatino Dictionario obseruasset, litteram cannam ad nasum usq; retisset.

Restat nunc ut eos grata animi significatione memorem qui olim hoc opere me adiutarunt, amanoisimodis absolsuerunt. Et libens quidem memorem D. Doctorem Iamesum de bonis literis optime meritum, qui mihi certa quedã uocabula è patribus collecta impertiri non recusauit. Nec non moxiss

Et Magist. Watsonus Coll. Lincol. Denique, non praeterire possum amicum integerrimum meum Magist. Wetbereld Col. Reg. In hac nouissima editione cuncta propria nomina desiderata, quae uspiam apud classicos autores Latinos reperiri possent à Stephano & alijs observata huc coaceruauit, fabulas & historicas observationes mythologicas & etymologicas dilatauit & castigauit.
